I Want It

Blue October

To all of you in the way
I push you aside
Flames burn down together
I refuse to ignite
I won't walk away (that is not in me)
I'm here to stay

So I raise my hand in grace
Pray for the ones I wish I could erase
Cause we are who we are and we'll be who we'll be
Live for the moment and the mystery of everybody owns a scar
To show us how we got this far
Cause we are who we are and we'll be who we'll be
Don't ever think you'll take away the fight in me

I want it...
I want it more then you ever did...

Here's to starting over
I heard you're shutting down shop
Boy I'm taking it over
I'm never gonna stop
Here's to the ones who said that you couldn't win
Here's to the crazies getting under your skin
They're always gonna talk
But I'm never gonna stop
I won't walk away
(I want it, crave it, bottle up and save it)
I'm here to stay
(I want it, crave it, I won't behave I'll turn it up more)

So I raise my hand in grace
Pray for the ones I wish I could erase
Cause we are who we are and we'll be who we'll be
Live for the moment and the mystery of everybody owns a scar
To show us how we got this far
Cause we are who we are and we'll be who we'll be
Don't ever think you'll take away the fight in me

I want it...

I want it more then you ever did...
