Making Amends

G. Love & Special Sauce

We have learned so much from
The struggles overcome
We have gained some friends
Some have done us wrong
Can't you see, better make some room for me
What should we do, to live up to youWhy, why, why, whyYou better live you life
What is wrong and what is right
Don't you talk too much
You got to back it up
Don't burn your candle from both ends
Now you gots to make amends
I'mma see that sunshine surely ease my mind
Birds singin' on a line
Made me feel so fine
Can't you see, better make some room for me
What should we do
To live up to youWhy, why, why, whyYou better live you life
What is wrong and what is right
Don't you talk too much
You got to back it up
Don't burn your candle from both ends
Now you gots to make amendsWhy
