Mozart's House

Clean Bandit

So you think electronic music is boring?
You think it's stupid?
You think it's repetitive?
Well, it is repetitive!I don't know, skip a beat!
I don't know, skip a beat!
I don't know, skip a beat! (We use special tricks with the computer)
I don't know, skip a beat!I don't know, skip a beat
Why must I say it when I hate to speak
I said, I don't know, skip a beat
'Cause my wife to dance got to their feet
I said I don't know, skip a beat
Wanna be a social but I hate to creep
I said, I don't know, skip a beat
Scared of heights but I got to leap
I said I don't know, skip a beat
'Cause I'm leaping for the stars
No clothes, I'm far from far
If I won't try, I won't go
I'll never leave, I won't go
Can't believe it, I won't go!
No, not far!Move your left, move your right
I kept it in my head and I kept trying to fight
I said, mhm move your left, move your right
Come a little closer if you like the limelight!
I said mhm move your left, move your right!
I want to surround and keep your here in my sight
I said move your left, move your right
Getting abuse 'cause everyone's taking all their time
They chase and flex the beat, it's on my mind
Moves like that aren't cool, or even crime
Now they one-handed, won't land it
Won't stand it, Clean BanditHere's a touch, ?
Relax the tempo, sips some movato
And if I get too animato
Tan my face with that ?
Aliente, mezzoforte, allegro or andante
I can make this voice
Staccato ?
I don't know, skip a beat, we're rushing now, we feel the heat

The doors are open, but the ?
Is this the place, is the final round!
Cruising at the speed ?
Watching the beat, we'll get to Vienna
Without a doubt the strings are fine, the bass is out
Give us a beat, you wrote the ?Couple of skip beats, a couple of movements out
Now we made it to Mozart's house!
Couple of skip beats, a couple of movements out
Couple of skip beats, a couple of movements out
Couple of skip beats, a couple of movements out
This is Mozart's House!So you think electronic music is boring?
You think it's stupid?
You think it's repetitive?
Well, it's repetitive!
