

Never Knew

[Gary Barlow](#)

I found the road to nowhere
The greener grass it turned to stone
Your shadowed face shines a rainbow now
The sign I found it pointed home
Never knew that I'd miss you this way
Never knew that pain could survive here inside
Never knew that I'd miss you this much
I'm reaching out to touch, I'm calling out for love
I only walked to breathe again
I felt the walls were falling down
Caught a busy train to freedom
Now here I stand in this lonely town
Never knew that I'd miss you this way
Never knew that pain could survive here inside
Never knew that I'd miss you this much
I'm reaching out to touch, I'm calling out for love
