Astounded

Bran Van 3000

All I want to do is love you
I just want to take you thereBaby, I dont want to argue
Dont even want to fight
I just want to love you
And hold you all the nightThe message from the party
Nothing to do with how
Try to keep it happy
Then depress yourself to cryAll I want to do is love you
You got to move on up
You got to move on upAll I want to do is love you
I just want to take you thereThe world is trying to make us
Go against our will
Theres too many mountains
Grown up from a hillJust take nothing less
Than the second best
Do not obey what most people say
Cause you can pass the testAll I want to do is love you
Baby, we got to move on up
We got to move on upAll I want to do is love you
I just want to take you there
All I want to do is love you
It feels like Im already thereThe world is trying to make us
Go against our will
Its early in our language
Of how the human feels
I just want to love you
I just want to cryI just want to love you
I just want, I just want
I just want to love you
I just want to cry
I just want to love youAll I want to do is love you
It feels like Im already there[Foreign content]
