She Loves My Automobile

Zz Top

She don't love me, she love my automobile
She don't love me, she love my automobile
Well she would do anything just to slide behind the wheel
She said, "What's it gonna take for you to lay your top on down?"
She said, "What's it gonna take for you to lay your top on down?"
I said, "Honey, why don't you ask me
When we get to the outskirts of town?"
Well now she don't care if I'm stoned or sloppy drunk
Well she don't care if I'm stoned or sloppy drunk
Long as she got the keys and there's a spare wheel in her trunk
