The Fact Is

Leela James

Sitting here thinking about the love that we shared
Tears running down cause I realize just how much I still do care
No and it doesnt matter how much time has passed us by
I cant deny its a fact you stay on my mind(I just cant) Forget about how you used to love me
(I just cant) Forget about how I used to love you
(I just cant) Let go of all those sweet memories
(I just cant) Say I dont love you no moreWhat am I gonna do? What am I gonna do?
With all this love I still have in my heart for you.
I am still in love with you
I tried so hard to go on living my live
No Im good Im good
Lying to myself acting like everything is all right
Im not good(I just cant) forget about how you used to love me
(I just cant) Forget about how I used to love you
(I just cant) Let go of all those sweet memories
(I just cant) Say I dont love you no moreMy heart belongs with you
Im still in love with you
You and I we should be together together forever forever
And I just cant just cant I just cant let you go
No I just cant just cant I just cant let you go
No I just cant just cant I just cant let you go(I just cant)
See the fact is
(I just cant)
I just cant get over you because Im still in love with you
(I just cant) Forget about how you used to love me
(I just cant) Forget about how I used to love you
(I just cant) Let go of all those sweet memories
(I just cant) Say I dont love you no more
