

Violent Life

Blonde Redhead

With a thousand kisses
Every moment is all mine
come back this time With a thousand kisses
one at time
you brought me crime Every minute is mine With a thousand kisses
---- I'm away
you brought me down With a thousand kisses
every second I think of you
come back it's fine
bring some wine
and leave my mind
forever With a thousand kisses
we share I don't care
I wish you down With a thousand kisses
every second I think of you
come back it's fine
bring some wine
and leave my mind forever
