## **Violent Life**

## **Blonde Redhead**

With a thousand kisses Every moment is all mine come back this timeWith a thousand kisses one at time you brought me crimeEvery minute is mineWith a thousand kisses ---- I'm away you brought me downWith a thousand kisses every second I think of you come back it's fine bring some wine and leave my mind foreverWith a thousand kisses we share I don't care I wish you downWith a thousand kisses every second I think of you come back it's fine bring some wine and leave my mind forever
