

# My death (live) Wacken 2004

## Mayhem

There's a sign carved deep  
In the palm of your hand  
There's a birthmark craving  
On the left side of your heart Your life was forever structured  
Composed and eternally given  
[Incomprehensible]  
[Incomprehensible][Incomprehensible]Into your glory of emptiness  
I send my life force My death, my death Be death with me  
Be death with me  
Death with me  
Death with me My death Odium humani generis  
Odium humani generis  
Odium humani generis  
Odium humani generis
