

# Hush

## Jellyfish

Go to sleep and hush little darling  
It's time for bed, time to put out the light  
Sweet dreams are awaiting behind your closed eyes  
And a blanket of night where the bed bugs don't bite  
Go to sleep and hush until morning  
You've said all your prayers, time to make them come true  
Don't worry, your daddy is here if you need him tonight  
Ease your mind, rest your eyes and sleep tight, goodnight
