

Good For Life (feat. Immature) [Bonus Track]

Marques Houston

If you're ever feeling tired or you need someone to fall on
Ever feel afraid or you need someone to call on
I am here for you and I don't care what we go through
'Cause we laugh and cry and we ride 'til we die And when time passes by, still our love will survive
And you don't have to ask
All you have to do is break the glass
In case of emergency all you gotta do is call on me If you ever need someone to talk to
(That's all you gotta do)
Don't you ever hesitate, just call through
(Don't hesitate, just call through)
'Cause whatever it is, I got you
And I promise 'til the end of time We good for life
(Ay, ay)
We good for life
(Ay, ay) We good for life
(Ay, ay)
And I promise 'til the end of time
We good for life If you ever get weak and you just need a little massage
I'll drop what I'm doing, I'll be there on the double
'Cause I'm here for you and I don't care what you're going through
'Cause we laugh and cry and we ride 'til we die And when time passes by still our love will survive
And you don't have to ask
All you have to do is break the glass
In case of emergency you can always call on me If you ever need someone to talk to
Don't you ever hesitate just call through
(Don't hesitate, just call through)
'Cause whatever it is, I got you
(I got you)
And I promise 'til the end of time We good for life
(Ay, ay)
We good for life
(Ay, ay) We good for life
(Ay, ay)
And I promise 'til the end of time
We good for life I'll kiss your pain and fear gone, never leave you all alone
Give you every thang, even change your name to Mrs. Jones
Truth lies in my bones, Mr. Right not ever wrong
If you ever need me, holla on and you know it's on If you ever need someone to talk to
Don't you ever hesitate, just call through

(Don't ever hesitate, just call through)
'Cause whatever it is, I got you
(Yeah, yeah)
And I promise 'til the end of time We good for life
(Ay, ay)
We good for life
(Ay, ay) We good for life
(Ay, ay)
And I promise 'til the end of time
We good for life We gone, be good 'til the end of time
We gone, be good 'til the end of time
We gone, be good 'til the end of time
