

Leave the Light On

Jeff Bates

I love the way your hair lays on your shoulders
And how it shines there in the light
I wanna hold you, so come a little closer
I don't wanna miss a thing tonight Baby, leave the light on
I wanna see how beautiful you are
Baby, leave the light on
I don't wanna be blinded by the dark I wanna look inside your lovin' eyes
And watch you when you breathe
Leave the light on
When you're makin' love to me I love your face, girl you're so pretty
I love your skin, it feels so soft
And I love that look, that tells me you're ready
As you let me take your nightgown off Baby, leave the light on
I wanna see how beautiful you are
Baby, leave the light on
I don't wanna be blinded by the dark I wanna look inside your lovin' eyes
And watch you when you breathe
Leave the light on
When you're makin' love to me Baby, leave the light on I wanna look inside your lovin' eyes
And watch you when you breathe
Leave the light on
When you're makin' love to me
