

This Life I Lead

Konu

In this life I lead
I plead no fifth on how I feel but drink a fifth of Henn to kill how I?m feeling
I know it?s wrong but it won?t be long
Until it all falls down.

Woke up yesterday, coughing up cigarette smoke and head hurting
Not much left to say, but that I?m going through a bad situation
Once in my life I had to find, my way out of the dark so the sun could shine
Not to promise but effort given, to make it better I?m trying

In this life I lead
I plead no fifth on how I feel but drink a fifth of Henn to kill how I?m feeling
I know it?s wrong but it won?t be long
Until it all falls down. (x2)

It ain?t hard to say, that I?m going through a self confliction
Maybe it?s where I stay, east coco that?s my true addiction
I had to vacate to get my mind straight, off to the 808 to contemplate
And I returned learning about the burn when in, the heat of this fire

In this life I lead
I plead no fifth on how I feel but drink a fifth of Henn to kill how I?m feeling
I know it?s wrong but it won?t be long
Until it all falls down. (x2)

One time in this life I?m living, many times I?ve fallen down
One time in this life I?m living, many times I?ve fallen down
One time in this life I?m living, many times I?ve fallen down
One time in this life I?m living, many times

In this life I lead
I plead no fifth on how I feel but drink a fifth of Henn to kill how I?m feeling
I know it?s wrong but it won?t be long
Until it all falls down. (x2)
