

Walking Good

Heart

Below the bridge the water rose on by
Trouble's gone and time is on my side
Been living in my ordinary shoes
Walkin' off my ordinary blues Once upon a love so bright and true
The weather changed, it went to Sunday School
Once upon a dark and stormy day
The promises dried up and blew away I found myself a brand new neighborhood
Don't worry about me 'cause I'm walkin' good
Take tomorrow, I'm giving up the past
Nothing but a hobo walkin' good at last Anyway I'm okay
Day into night and night into day
Gone so far away from my home
Take the high road and down below Anyway I'm okay
Day into night and night into day
Gone so far away from my home
Take the high road and down below Anyway I'm okay
Day into night and night into day
Gone so far away from my home
Take the high road and down below Anyway I'm okay
Day into night and night into day
Gone so far away from my home
Take the high road and down below
