

# Mystical Plane Of Evil

## Kataklysm

(Chapter 2 - Enigma Of The Unknown)

Floating in torment, suspended animation, captured in frontiers, =  
between time and space.

Dimensions, stepping through barriers, toward the void, the dark =  
forces increase.

Near my goal, from my calling, still resisting, still hoping.  
Perceiving in a shower of black fog, a big bright vortex straight =  
ahead my course.

Where Damians block my path, using my last drop of energy, I smash =  
into the exit.

Destroying them and gaining entrance.

Revolution of time, passing the vortex, restores my soul, feeding, =  
my power grows.

Of hate and desire, to destroy and receive, pain and pleasure =  
within.

The lost domain of GANZIR, an ethereal plane, the world beyond of =  
beyond.

Afterlife of Damians, war bound of demons.

MYSTICAL PLANE OF EVIL

MYSTICAL PLANE OF EVIL

The captor of inverse energy, the destructor of captive tortured =  
souls.

Protected by emissaries of alien creatures, unknown to human race.

The wishes of every souls here came through, the gift of =  
annihilation, confrontation, elimination.

And reborn of new unlife demonic forces, instead of their freedom.  
Damians....Damians...

In the great battlefield of death, some of LEVIATHAN minions use =  
portals to travel back to earth.

To get more food....more souls.

Here, they are draining life with malevolent crystals which feed =  
LEVIATHAN.

And replaces the spirit=B9s energy with dark fumes, what did I wish =  
for?

I fly through the exit of this hell, emerging from the astral =  
horror.

Reentering my body that was in my room, lying in a pool of blood.  
I raise like a zombie from my bed, I am now an undead, a terrorizing =  
terror of the living.

No, I want to live, revive.  
I want to undo what I=B9ve done!  
Dead, dismal, rebel, warrior, sinister, hunger for life.  
Unblessly taken to rotten crypts...
