

# My Fault

## Imagine Dragons

I took a walk on a Saturday night  
Fog in the air  
Just to make my mind seem clear  
Where do I go from here?  
I see my breath pushing steam through the air  
Shaking hands run through my hair  
My fears, where do I go from here?  
Is it my fault, is it my fault?  
We've been missing each other  
We've been missing each other  
My fault, is it my fault?  
We've been missing each other  
We've been missing each other  
Walking down to the water's edge  
Asking why I'm here instead of home  
Now I stand alone  
I stop to stare at the ocean side  
I'm breathing in just to feel it's side  
with his  
like you were here with me  
Is it my fault, is it my fault?  
We've been missing each other  
  
We've been missing each other  
My fault, is it my fault?  
We've been missing each other  
We've been missing each other  
Oh, it's on the warmest night  
It's in the brightest light  
It's when the world is moving  
Oh, it's in the faintest cry  
It's in the lover's eye  
Is when I need you most  
And don't you know?  
Is it my fault, is it my fault?  
We've been missing each other  
We've been missing each other  
My fault, is it my fault?  
We've been missing each other

We've been missing each other  
Is it my fault, is it my fault?  
We've been missing each other  
We've been missing each other  
My fault, is it my fault?  
We've been missing each other  
We've been missing each other
