

The night they returned

Kataklysm

I've got the urge to kill, to see the blood flow
My lust for you grows, to carve up that inner glow
Seduce me with your death, my love for you is red

Random Killings, Individual Torture

Blood feast. Carnage DoneThey are the flesh eaters

Let the fire burn The night they returnAs I lay you to rest your remains are mine to test

I feast on your soul like never before

Seduce me with your death, my love for you is red

Random Killings. Individual Torture

Blood feast. Carnage DoneThey are the flesh eaters

Let the fire burn The night they returnOh dry your tears come to me now

Let me feel your pain
