# You Belong

## Jason Wade

One...two...one two three fourYou feel as though as everything wanders around
Someone will tell you everything is brown
But you can't believe in everything you hear...not nowYou don't know where your'e going
You don't know what your'e doing
You've got to find a place that you can go, that you call homeIts funny how you fake it
I always knew you made it up
And this is the place that you can go, that you belong
Yes you belongI love you more than you love a blue sky
More than the moonlight on a silent winter night
more than all my flowers that bloom for you my lifeYou don't know where your'e going
You don't know what your'e doing
You've got to find a place that you can go, that you call homeIts funny how you fake it
I always knew you made it up
And this is the Place that you can go, that you belong
Yes you belongYou belong
You belongYou don't know where your'e going
You don't know what your'e doing
No matter how far
No matter how long
This is the place that you belong
