

# During The Storm

Shai

When the sun shine brings a new day  
And your rainbow starts to appear  
Let us take you far far away from here  
Girl rest your eyes, I'll watch you  
Don't worry none, I'll keep you safe  
Keep you safe, safe, keep you safe  
And every waking moment  
I'll pray the sun adorns your face, your face  
In the stormy days of life, I'll be the light, so hold on  
To guide you through the night, just be patient  
Can we spend our nights alone with thoughts of paradise only  
To be with you my love, forever  
During the storm, during the storm  
Don't let the rain drops fall upon your face  
During the storm, during the storm  
Don't let the rain drops fall upon your face

As things go by, I'll stay by your side  
Your love I need, it cannot be denied, no no  
Through the years, untested waters  
Girl just come with me to another place  
In the stormy days of life, I'll be the light, so hold on  
To guide you through the night, just be patient  
Can we spend our nights alone with thoughts of paradise only  
To be with you my love, forever  
During the storm, during the storm, during the storm  
(Don't let the rain drops fall upon your face)  
During the storm, during the storm  
During the storm, during the storm  
(Don't let the rain drops fall upon your face)  
During the storm, during the storm  
During the storm, during the storm  
Don't let the rain drops
