

# All She Wants Is

## Duran Duran

All she wants is  
All she wants is  
All she wants isAll she wants is  
All she wants is  
All she wants isHey, spend your money on the corner, now  
You know you've gotta save some for the shoeshine, boy  
You've been pulling them by the hand inside  
Oh, collecting all your toysIf you need a lead to heaven now  
Just stick around, you're gonna be there  
What do you care? What do you dare?  
What does your heart say, now?All she wants is  
All she wants is  
All she wants isDivine intervention, couldn't keep  
The word from leaking out  
With your pleasure in suspension  
Not to mention what you hang it aroundIf you need a lead to heaven, yeah  
A place to share in every position  
What do you care? What do you dare?  
What does your heart say, now?All she wants is  
All she wants is  
All she wants is  
More, more, more, guess what?  
Yeah, guess what?All she wants is  
All she wants is  
All she wants is  
All she wants isAll she wants is  
All she wants is  
All she wants is  
All she wants isAll she wants is  
All she wants is  
All she wants is  
All she wants is
