

# Sharon & Hope

## Stina Nordenstam

Sometimes it's all around you  
Sometimes that love surrounds you  
And even gone it's with you  
Tasting of salt  
He learned about love the hard way  
She learned that nothing would stay  
They knew all about love and nothing  
Sharon and Hope  
She says I like to kiss you  
He says you'd better not  
He's on the brink of loving  
She's on the brink of falling  
Maybe a month in Spain could do it for you  
Or a fridge of cocaine could do it  
Those are not ways to do it  
For Sharon and Hope  
Now that I met you nothing's the same  
It's not going to be it ever again  
If you stay or walk away  
If I'm off or if I'm brave  
Sometimes it's all around you  
Sometimes that love surrounds you  
We have it if we want to  
Me Sharon you Hope.
