# Rubbernecking

## Keane @ 4UOnly.biz

I come to, there will be no more drowning
Help, colorless and cowering
You should understand me
When you're understanding
And through all the tears should you be alone
Right back, I hope he will pull through
Stand back, first aid is useful
You should understand me
How was I so stupid?
And through all the tears should you be alone
After all the tears should you be alone
Yes, there's going to be a drowning
Yes, there's going to be a drowning
Half wasted, face painted
Hold my hand
There will be no more
Please move along
There will be no more
Please move along, oh
