

# Imagination

## Earth, Wind & Fire

Magic mirror come and search my heart  
Can you tell me what you see?  
There's a thousand voices whispering  
Songs and you're the melody So I imagine my heart with you  
See what imagination can, can do  
It's not hard to conceive love's ecstasy  
Imagining you and me Many, many days our shadows passed  
Seeing visions of a new  
Bright horizon set the morning light  
Ooo, and that morning lights you So I imagine my heart with you  
See what imagination can do  
It's not hard to conceive love's ecstasy  
Imagining you, imagining me  
The beauty we both can see You're the dream I prayed would come along  
To make real my fantasy  
Day and night you live inside my heart  
You're the flame of love to me So I imagine my heart with you  
See what imagination will do  
It's not hard to conceive love's ecstasy  
Imagining you, imagining me  
The beauty we both can see It's funny what love would do  
I've been thinking only about you, ooo, baby, yea  
It's funny how I feel this way  
Wondering about another day, ooo hoo  
It's funny what love would do  
I find myself thinking only about you baby, yea, ohh  
It's funny what love would do
