## Ro James

There can never be another like you  
You're the only one in my eyes  
And if you try to leave, I'm gon' find you  
Running through the back of my mind  
I will search for your love, just to find you  
Even though you be mine, never forget you  
I love what you got under baby  
Girl I won't let you go, won't let you go
