

# Dark Ages

## NoMeansNo

~~~~~

We are living in the, in the dark ages  
Haven't seen some daylight in what seems ages  
    All the information is locked far beyond  
    Locked in circuits and bathed in silicon  
And we're fast asleep with our dreams seething  
    In and though all is still we are still breathing  
But it's him in the dark, he makes me null and void  
    But it's him in the dark, I think I'm paranoid  
    A world of half-truths, what goes unspoken  
Lines of communication are stripped and broken  
    And the dark is cold with hands freezing  
But this deep-freeze seems strangely pleasing  
    And the powr-trippers receive facelifts  
    And the button-pushers all work night shifts  
    And the misdemeanors seem so ghastly  
    While the media punch is so lasting  
And the Eastern comrades find out much too late  
    And free men are free to subjugate  
    Under megashadow, under nine to five  
    Still it's self-extinction that keeps us alive  
    We are living in the, in the dark ages  
Haven't seen some daylight in what seems ages  
    All the information is locked far beyond  
    Locked in circuits and bathed in silicon  
    I don't know  
    Go to sleep  
    We are in the dark ages
