Mind

System Of A Down

Come baby, come close to me
Let me love you
Come baby, come close to me
Let me feel you
Look at each other
Look at each other
Look at each other
Look at each other
Look at each other
Look at each other
Look at each other
Look at each other
Go away
Go away
Go away
Go away
Well, mutually, mentally
Molested children of a mother
Mutually, mentally
Molested children of sin
Oh no, the ever so popular
Beating that took you under
Oh no, the ever so popular
Beating that broke your skin
Free thinkers are dangerous
Blame, hate, for fate's seed

Go away
Go away
Go away
Go away
Oh, you need the ones you love
Love the ones you need
Need the ones you love
And love the ones you bleed
Lives rearranged and lives in my range
Can you see?
Lives rearranged and lives in my range
Can you see?

Free thinkers are dangerous
Blame, hate, for fate's, seed
Die!
Die!
Die!
Die!
Gonna let you mother fuckers die
Gonna let you mother fuckers die
Gonna let you mother fuckers die
Gonna let you mother fuckers die
Look at each other
Look at each other
Look at each other
