

# Honey Child

## Bad Company

Well, the first time that I met you, you were only 17  
But I had to put you down 'cause I didn't know where you'd been  
You had a long black dress, your hair in a mess You didn't seem to have no class  
But the look on your face was no disgrace  
I knew I had to move real fast Honey child, don't you know you drive me wild  
Oh, honey child, don't you know you drive me wild  
Just about to lose my mind Well, the second time that I met you, you were just turned 21  
And all your talk about love, love, was gone, long gone Oh, honey child, don't you know you drive me wild  
Honey child, don't you know you drive me wild  
Just about to lose my mind, yeah Oh, honey child, don't you know you drive me wild  
Honey child, don't you know you drive me wild  
Honey child, don't you know you drive me wild  
Oh yeah, honey child, don't you know you drive me wild Honey child, don't you know you drive me wild  
Honey child, don't you know you drive me wild, yeah yeah  
Honey, honey, honey, honey child, don't you know you drive me wild
