

# If The World Ends

## Guillemots

I just about managed to forget you when you appear in a dream  
And you're even more beautiful there than I remember you being  
So I've come to decide fate is telling you to not go  
And considering this, so I want you to know  
If the world ends, I hope you're here with me  
Think we could laugh just enough to not die in pain  
If the world ends, it won't finish you  
You're not the type they can capture  
You flit like a fly catcher, they can't pin you down  
Can't pin you down  
In my dream you're playing with buckets of sand  
And water was running through both of your hands

And I don't think I ever heard you speaking  
'Cause I was too wrapped up in the dream I was dreaming  
So if the world ends, I hope you're by my side  
I don't think with you here, it will be too much pain  
And when you cry, darling, I wish you'd feel my love  
Your heart is way beyond capture  
Flitting like a fly catcher, they can't pin you down  
Whoa, they can't pin you down  
Can't pin you down  
Can't pin you down  
Can't pin you down
