

Hold Me In (DJ iZem Remix)

Lucas Santtana

Hold me in
Then slowly let me out
Hold me shut
Your mouth is not my mouth
Hold my hand
Bikini pulled aside
Hold me low
and upside down and black
Don't let me go
Use all your twists
Hold me once and hold me twice
While night booms on the sand
Hold me once and hold me twice
Don't even think about dry land
Hold me once and hold me twice
Water rushing rising foam
Hold me shut
A classic silent scream
Hold me down
No telling what is sweat
Don't let me go
Use all your twists
Hold me once and hold me twice
While night booms on the sand
Hold me once and hold me twice
Don't even think about dry land
Hold me once and hold me twice
Water rushing rising foam
