

# Live In the Moment (feat. Jussie Smollett & Yazz)

## Empire Cast

Empire State of Mind

Let's go!

Things are looking up  
I'm ready for the night  
I feel good, real good  
Can't nobody hold me down  
Gonna take advantage of  
All these flashing lights  
'Cause it's the best time  
The best time for it  
We can do all right now  
Can't nobody turn me down  
If you wanna, I got it  
Tomorrow's not promise

Live inside the moment  
Tell me what are we waiting for  
What the hell are we waiting for?  
I wanna live inside the moment  
Tell me what are we waiting for  
What the hell are we waiting for?  
I wanna live inside the moment, moment, moment  
I wanna live inside the moment, moment  
I wanna live inside the moment

Yo ma

Yo

When I was five years old  
I realize there was a road at the end  
Pretty girls causing bank roll  
Gold and platinum plex  
A couple millions sold  
Fans screaming they love me  
Selling out my shows  
I put in hard work  
You won't get your art and it won't work  
Waking up on the pieces, Lucius giving birth  
Gotta believe in yourself

Gotta know you're worth  
I did it clean as a whistle  
Stay away from dirt  
I told you I'm a get it  
Everybody they talking I drop the ball  
How I'm living  
Reality was ringing  
Whatever my vision  
That's why I hustle so hard to be the best ever did it
