Almost Here

Unbelievable Truth

When I was alone
It felt so cold
It was hard to keep from shaking
I found someone and I couldn't move
I couldn't breathe
And you try to tell me that we're almost here

That we've almost made it
How can I be somebody new
When I see my own reflection
And you try to tell me that we've almost made it
That we're almost here
How can I be somebody new
When I see my own reflection
