

# The Way That You Talk

## Jagged Edge

It's scary, I'm Miss Up's to da area  
So so Def, next to Jay D  
This funkdafile baby keep 'em crazy  
My mentality happen to be livin' lavish  
With formalities of having the fat shitMy status is impeccable  
We wreckin' yo crew, the casualty is you  
Jagged Edge coming through  
Remember who  
Hit it, did it something like a thousand times  
Can't stop, can't quit  
Gotta, gotta get mine  
Get yoursI catch you off guard, keep yo dick hard  
Follow the yellow bitch to the road to riches  
And if the smoke thickens  
It's to be the beat  
Or it detrimental to your brain  
Choakin' off Mary Jane  
A.T. lettin' it ill, say 'kay  
And kept it wetter than Niagara  
The main dame who maintain to stay platinum, yeah, awwWe talking, me touchin' you and your body  
We even talkin' 'bout you and your other guys  
I like it when you tell me what you'd do if I was with you  
I like it 'cuz you have nothin' to hideThe way that you talk to me  
The things that you say to me  
You got my body girl  
Have your way with me  
I'm tellin' you now  
There's something about  
Girl, I can't live without  
The way you talk to meWe talking 'bout dreams you have about you and I  
You tell me things I did to you once I got up inside  
You make me look forward to the future  
Wanna have a wife and kid  
'Cuz all the time that I been gettin' around  
I never felt like this, yeah  
I know you know baby, how much I love you  
I love you, you love me, and I know  
Baby, I know, whoa, yeah, whoaWhen I call yo name  
It's all about the poom poom nanny nanny

And mo' money  
With me pink bunny and the G  
You just in the D J.E. era, chromed out carreras  
Sex, boozin', and nonstop I flow watch out  
Gimme some Chrystal, a sip or so  
You can send 'em all back  
The type that walk up in the club screamin'  
Where the ho's at Tracks stay steaming, keep your floors packed  
Diamonds stay gleaming and you're no match  
For me and my faculty  
Actually all y'all are whacked to me  
Send me some true playa's, with true rank  
Don't give a damn what you think  
Make a bet and I'll stop yo' bank, baby You dress jiggy, body bomdigi  
Then it's a possibility that you and I can get busy  
What chu wanna do, shit  
I got a pocket full of rubbers, and Jay D. do too The way that you talk to me  
The things that you say to me  
You got my body girl  
Have your way with me  
I'm tellin' you now  
There's something about  
Girl, I can't live without  
The way you talk to me Make you scream Papa  
You the best da da  
Make you scream Papa  
You the best da da  
Make you scream Papa  
You the best da da
