

Think It Over (Single A-side, vocals John Sloman)

Uriah Heep

I've had all I can take
I've taken just too much
I've made a big mistake
That put me out of touch
I don't think I can face
Another single day
Without a call from you
To take this pain away So many tears ago
You turned and walked away
It could've been the end
But I knew better
I had to tell myself
There'll be another day
She wants to call it quits
But don't you let her Can't you see
There's a chance for you and me
Think it over
Don't believe
In the things that may not be
Think it over Why don't you think it over
Forgetting you is out
I ain't givin' in
The fuss was down to you
But it's not over
You have to face the truth
I'm still in love with you
I have to make you see
That it's not over
