

Rescue

Breathe Carolina

Spare us the rescue
We're not lost, we just go where we want
Spare us the rescue
When we roll we roll deep
And we'll sink twice as lowSpare us the rescue
I can walk, I can walk on my own two knees
It takes, takes some
Takes some dying to feel aliveSpare us the rescue
A friend in need is a friend I don't need
Spare us the rescue
We've made peace with our lovely diseaseSpare us the rescue
Crawled out of my tunnel vision to find
It all, all went
All went wrong but it feels alrightDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fineWe're on our last life
We'll make no compromise
Whatever happens we're fineSpare us the rescue
Back on the street, a mile up in the sky
Spare us the rescue
I'm close with my demons
There's no need to hideSpare us the rescue
I've worn out my sins
I need new ones to shine
It takes, takes some
Takes some dying to feel aliveDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fineWe're on our last life
We'll make no compromise
Whatever happens we're fine
So spare us the rescueWhere have we been?
Where will we go so far?
I'm not distant but this distance
Makes all the difference to meWho have we been?
Who will we be so far?
It's not visible but we're perfectly
Comfortable hereDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fine

So spare us the rescueWe're on our last life
We'll make no compromise
Whatever happens we're fine
So spare us the rescueWhatever happens we're fine
So spare us the rescue
Whatever happens we're fine
So spare us the rescueDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fineWe're on our last life
We'll make no compromise
Whatever happens we're fineDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fine
