Rescue

Breathe Carolina

Spare us the rescue
We're not lost, we just go where we want
Spare us the rescue
When we roll we roll deep
And we'll sink twice as lowSpare us the rescue
I can walk, I can walk on my own two knees
It takes, takes some
Takes some dying to feel aliveSpare us the rescue
A friend in need is a friend I don't need

Spare us the rescue

We've made peace with our lovely diseaseSpare us the rescue Crawled out of my tunnel vision to find

It all, all went

All went wrong but it feels alrightDidn't we enjoy ourselves When we destroyed ourselves?

Whatever happens we're fineWe're on our last life We'll make no compromise

Whatever happens we're fineSpare us the rescue Back on the street, a mile up in the sky

Spare us the rescue

I'm close with my demons

There's no need to hideSpare us the rescue

I've worn out my sins

I need new ones to shine

It takes, takes some

Takes some dying to feel aliveDidn't we enjoy ourselves

When we destroyed ourselves?

Whatever happens we're fineWe're on our last life

We'll make no compromise

Whatever happens we're fine

So spare us the rescueWhere have we been?

Where will we go so far?

I'm not distant but this distance

Makes all the difference to meWho have we been?

Who will we be so far?

It's not visible but we're perfectly

Comfortable hereDidn't we enjoy ourselves

When we destroyed ourselves?

Whatever happens we're fine

So spare us the rescueWe're on our last life
We'll make no compromise
Whatever happens we're fine
So spare us the rescueWhatever happens we're fine
So spare us the rescue
Whatever happens we're fine
So spare us the rescueDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fineWe're on our last life
We'll make no compromise
Whatever happens we're fineDidn't we enjoy ourselves
When we destroyed ourselves?
Whatever happens we're fine
