

Heart On Fire (feat. Lennon & Maisy)

Nashville Cast

You were the girl with the blazing heart on fire
Free as a dress in the breeze
Hanging on a laundry line
In the sunshine You had the eyes, saw the beauty in the mess
Love in the moment, on the fly
And you figured out the rest
You were fearless Who threw the punch that you couldn't handle?
What came along and blew out your candle?
Love, Gotta light it back up
Maybe it's just yourself that you're fighting
Keeping the shine in your star from rising up
Gotta light it back up Won't let you sink like a stone to the bottom bottom
Let me remind you of the you, you've forgotten
It's just the road, it's just the wave that you're riding
I know it's rough, Gotta get back up
Light it back up Who threw the punch that you couldn't handle?
What came along and blew out your candle?
Love, Gotta light it back up
Maybe it's just yourself that you're fighting
Keeping the shine in your star from rising up
Gotta light it back up Won't let you sink like a stone to the bottom bottom
Let me remind you of the you, you've forgotten
It's just the road, it's just the wave that you're riding
I know it's rough, Gotta get back up
Light it back up You were the girl with the blazing heart on fire
