

Stay

Agnetha Faltskog

(David Clark Allen)

I know you've been around, I don't mind,
You know I've been down, for such a long time,

We both wanna care

Lonely hearts searching for someone there

We could have, should have

All the love we've waited to share.

Stay, I want you to stay,

Isn't it time we stopped running away?

Oh stay, I want you to stay,

Isn't it time we stopped running away?

You know I need you

And I know that you need me too,

Come close and look in my eyes

There's a light shining for you.

Stay, I want you to stay,

Isn't it time we stopped running away?

Oh stay, I want you to stay,

Isn't it time we stopped running away?

Make up your mind, decide,

If we are making love tonight

Tell me yes tonight I might

Open the door it's gonna be alright.

Make up your mind, decide,

Open the door it's gonna be alright now.

Stay, I want you to stay,

Isn't it time we stopped running away?

Oh stay, I want you to stay, I want you to stay,

Isn't it time we stopped running away?

Oh stay, please stay, I want you to stay

I need you, isn't it time we stopped running away....
