Stay

Agnetha Faltskog

(David Clark Allen) I know you've been around, I don't mind, You know I've been down, for such a long time, We both wanna care Lonely hearts searching for someone there We could have, should have All the love we've waited to share. Stay, I want you to stay, Isn't it time we stopped running away? Oh stay, I want you to stay, Isn't it time we stopped running away? You know I need you And I know that you need me too, Come close and look in my eyes There's a light shining for you. Stay, I want you to stay,

Isn't it time we stopped running away?
Oh stay, I want you to stay,
Isn't it time we stopped running away?
Make up your mind, decide,
If we are making love tonight
Tell me yes tonight I might
Open the door it's gonna be alright.
Make up your mind, decide,
Open the door it's gonna be alright now.
Stay, I want you to stay,
Isn't it time we stopped running away?
Oh stay, I want you to stay, I want you to stay,
Isn't it time we stopped running away?
Oh stay, please stay, I want you to stay
I need you, isn't it time we stopped running away....
