

# Make It Look Good

## Mariah Carey

You make me wanna say  
Yeah, yeah  
Oh boy you make me say Something about you makes every girl hot  
Suffering without you  
I just want a taste of what you got  
But my mama always told me not to Play with those players who play you til there's no more  
Game left to be played  
Look at what you got me going through  
Can't help myself because You make it look good (make it look good)  
Say you make it look good (make it look gooder than them other fools)  
Around you when I ain't supposed to be  
Acting like I know you notice me  
Fantasize about the way you lick your lips  
Fingertips on my hips as we dip  
Oh, boy you make it look good (make it look gooder than them other fools) Baby baby sometimes, I need you  
But I feel so shy  
Simply can't leave you  
'Cause them other girls are gonna try  
Guess their mama never told them not to Play with those players who play you til there's no more  
Game left to be played  
Look at what you got me going through  
Can't help myself because You make it look good (make it look good)  
Said you make it look good (make it look gooder than them other fools)  
Around you when I ain't supposed to be  
Acting like I know you notice me  
Fantasize about the way you lick your lips  
Fingertips on my hips as we dip  
Oh, boy you make it look good (make it look gooder than them other fools) Ooh fool  
And it makes every girl high  
Oh boy you make me say  
Ooh, ooh you  
No, my mama said don't play with them players  
No, no  
Look at what you got me going through  
Fantasise about the way you lick your lips  
Oh, it's gooder than them other boys  
Yes, it is
