

Many Times

Eddie Fisher

Many times, many times I have wanted your kiss
Many times I have dreamed we'd be kissing like this
My heart has been filled with the thought of holding you
I've dreamed it so often; at last it's come true!

With a smile, with a sign, with a star up above
Here we are, you and I; the beginning of love
While searching for heaven I found it just then
Take me back again
