

Fade Away

Ania Ziemirska

You're a candle burning at both ends and I can't bear to watch you wane
There's a shadow hanging over you my friend and I can't see your shining face

And I won't stand to watch you fade
I won't stand to watch you, watch you, watch you fade away

You've been best friends for oh so many years and you love each other so
How could he walk away from a gift like that? Can't he see you're worth much more?

How can he stand to watch you fade
I won't stand to watch you, watch you, watch you fade away
All your silence a disguise cause I know you scream inside
Why don't you let it, let it all out tonight?

Stand up and fight, 'cause you know that I'm right
That sparkle in your eye, no I won't let it die
Cause I won't stand to watch you fade
I won't stand to watch you, watch you, watch you fade away
