Milk & Sticks

Boy & Bear

Born from the Soldiers Arms
But our spirit keeps a moving on
And, one meter at a time we'll fall
It's a bloody hill and a broken wall
We've been singing like a lunatic
Knee deep in our milk and sticks
Just a kid with a broken arm
It's sling shot ahead of harm

Oh I'm hungry for the feeling honey
Cause it's moving faster than the speed of sound
I left you a lizard by the lake my lover
It was so profound
While we found
While we found

Torn like a beaten man
It's another dog in a foreign land
And you've been carrying a broken stone
New tricks and a buried bone
We've been born to be motivated
Half that are cultivated
I promise you when the time does come
We'll be down river with my loaded gun

Oh I'm hungry for the feeling honey
Cause it's moving faster than the speed of sound
I left you a lizard by the lake my lover
It was so profound
While we found
While we found
While we found
While we found

Just like the rest
You'll be coming back if you're looking for paradise
The silver line it separates your body from your mind
What a mess we're in
There's a monster in my head
There's an animal screaming that I'm on my neck

Oh no you better get off my friend
There's a monster in my bed
There's an animal screaming that I'm on my neck
Oh no you better get off my friend
What a mess we're in
Oh no you better get off my friend
Oh no you better get off my friend, yeah
Oh you know you better run my friend
