The Science of Horror

Nocturnus

FEAR!!!
OF THE UNKNOWN!!!
FEAR!!!
OF THE UNCERTAIN!!!
Haunted, Plagued by horror from the beyond
Hideus Forms, emanating figure, that lurks in the black
Nightmare, visios from the dephts of ypur mind
Lost... left without way... standing, standing aloneFallen, spiraling down, erratically, a labyrinth of time
Silence, tongues in this realm. Speechless, words that have no sound[Chorus]
Burning, at the stake like a witch
Drowning, oh my god. I can't get a breath
Torn apart, on the rack, no one will help
Sharp teeth, dig deep in the skin
Falling, smacking the ground, shattered to bits
Fear not my bladeHunting for the next one
I search for the scent
Your life my essenceI am the conqueror
I am the one you fear
I am atrocity
Unbelievable sickness
In my mindDon't worry. I will keep you
Forever, and never
I, have a place
Safe, No one will hurt you hereYou can't fathom these things in your mind
Feeble minded
I am a higher grade, sentient creature
You will never know
What I'm made ofIt is imperative that I kill
Otherwisetheymaysimply,neverunderstandme
I will show them
