In the Water

Ebrahim

Verse
Heâ€™s got
One hand on the trigger, man
Tail on this throne
Just light a fire on oil, watch him go
Heâ€™s a simple soul made of blood and gold
Just ask his daddy like he did two minutes ago

Pre
See itâ€™s his party and heâ€™s gonna make us watch him cry
Weâ€™re all invited whether we like it so hold on tight

Chorus
Something in the water tells me
That he is not alone
Million other fires are burning
But we just standing stone

Give it up, give it up, give it up give it up ba duh
Give it up, give it up, give it up give it up ba duhâ€¦yeah
Give it up, give it up, give it up give it up ba duh
Give it up, give it up, give it up give it up ba duhâ€¦yeah

Verse
Maybe Iâ€™m a fool while this dude is fresh
Although I canâ€™t recall when I last burnt flesh
Like fishing on Sundays or driving on fairways
Maybe Iâ€™m going crazy

Chorus (2x)
Something in the water tells me
That he is not alone
Million other fires are burning
But we just standing stone
Something in the water tells me
That he is not alone
Just seen another mother crying
But we just let her go

Breakdown

Chorus (2x)
Something in the water tells me
That he is not alone
Million other fires are burning
But we just standing stone
Something in the water tells me
That he is not alone
Just seen another mother crying
But we just let her go
