

# Texas Is Bigger Than It Used to Be

[Mark Chesnutt](#)

Lucky me, I grew up beneath that ol' lone star  
I was raised on fiddle and the steel guitar  
Well, it used to be if you wanted to swing  
To a good ol' country song  
You had to find your way to Ft. Worth, Houston, Dallas, San Antone  
But oh, how it's grown? Texas is bigger than it used to be  
Coast to coast it's alive in most  
Every town and city  
I should know I'm on the road  
And lovin' what I see  
Texas is bigger than it used to be It's one, two, three step, dancin' in the line  
Stretchin' that denim having a good time  
My daddy told me years ago  
He said, "Son, there'll come a day"  
When it'll spread to Minnesota, New York City to L.A.  
It's happening just that way Texas is bigger than it used to be  
Coast to coast it's alive in most  
Every town and city  
And I should know I'm on the road  
And lovin' everything I see  
Texas is bigger than it used to be
