Say It Again

Frances

You run with the sun in your eyes
Arms open to whatever you find
Then there's me
Hopelessly trying to find a way
Of hearing three little words from your mouth
And not filling this heaven with doubt
Humor me, I know you've said it butSay it again
I wanna know that you mean it, this time
Say it again
I know that I should believe it
But I
Never thought someone would love me like you say you do
So say it again, and I'll say it back to youYou're holding my heart in your hands
And it's the safest feeling I've had, it can't be true
Someone like you, feels this way for me
I hear three little words from your mouth
And my heart can't figure it out
So humor me, I know you've said it butJust say it again
I wanna know that you mean it, this time
Say it again
I know that I should believe it
But I
Never thought someone would love me like you say you do
So say it again, and I'll say it back to you
