

Slow Dance

Freddie Jackson

Here we are, sitting in the kitchen
Talking about the bills, the taxes and the tuitions
We've been working hard, things are finally getting better
So let's put it on pause and pull out some more records
We need a slow dance, some romance
'Cause we've all been on the go so put Marvin on the stereo
We need a slow dance, a night of romance
And a little midnight kissin', girl, haven't you've been missing a slow dance
There you are, you don't look a day
older
Still fine as wine with that dress hanging off your shoulder
Can I spin you around, like they did in the old movies?
Hold the small of your back and grind you to Prince's "Do Me, Baby"
We need a slow dance, some romance
'Cause we've all been on the go, put Sade on the stereo
We need a slow dance, a night of romance
Just a little midnight kissing, the kind that we've been missin', a slow dance
Let's take time to get away
But no reservations, need it today
Talkin' 'bout more affection through out the day
Red candles on the dinner table then blue lights in the basement
We need a slow dance, some romance
'Cause we've both been on the go, put The O'Jays on the stereo
We need a slow dance, a night of romance
And a little midnight kissing, girl, I know that you been missing a slow dance
We need a slow dance, some
romance
'Cause we've both been on the go, put Freddy on your stereo
We need a slow dance, a night of romance
And a little midnight kissing and the kind that we've been missing, a slow dance
We need a slow, a slow
A slow dance, kind of mood I'm after is Anita Baker's "Rapture"
We need a slow, a slow
A slow dance, remember baby, you are my lady
We need a slow dance, some romance
We got it take it, take it nice, nice and slow
We need a slow dance, a night of romance
(You and me)
I could use a little love right now
