Was That a Sign

Nite Jewel

a crowded room
you waved me over
and you were smiling too
was that a sign?we're talking talk
about the weather
you said you like it hot
was that a sign?don't wanna think it's in my imagination
don't wanna play it safe i wanna be in dangerhe put his hand
oh on the table
and it was close to mine
was that a sign?i'm wondering what it means
each and every day i do
sit here and i dream
cuz dreaming's all that i can dowas that a sign?
