Big Feeling

Spandau Ballet

Big feeling
Come next September I'll be out upon the road again
And there'll be times when I can hardly even say your name
But now we're sticking to the sheets and I can't sleep tonight
And like a dream love we're moving into lightOh, I feel like this is warning
And oh I feel like ten feet tall
And don't ever let me down
Don't ever let me downBig feeling
Oh it's getting hard to hide
Big feeling
Like a river running wide
You are my thunder
And there's lighting here insideOh come on, darling now day has turned it's time for home
I won't forget that night we slept out on the beach alone
Now the sun has come to take the moon and light the sky
Wave over me flow over meOh, I feel like this is warning
And oh I feel like ten feet tall
And don't ever let me down
Don't ever let me downBig feeling
Oh, it's getting hard to hide
Big feeling
Like a river running wide
You are my thunder
And there's lighting here inside
(Lighting here inside)Feeling insideDon't ever let me down
Don't ever let me down
Don't ever let me downBig feeling
Oh, it's getting hard to hide
Big feeling
Like a river running wide
You are my thunder
And there's lighting here insideBig feeling
Oh come on darling, now day has turned it's time for home
Big feeling
I won't forget that night we slept out on the beach alone
You are my thunder
And there's lighting here inside
Lighting here inside
